

Cameron Picking up Breakfast

Cameron has to pick up breakfast for Tasha, Bethany, and Jerry. They all ordered different drinks; they ordered hot tea, hot chocolate, and a smoothie. They all ordered different eggs: scrambled, fried, and omelet. They also ordered different sides: chocolate chip muffin, blueberry muffin, and cranberry white chocolate muffin. Based on the clues, who ordered which breakfast items?

Logic Puzzle Clues

1. Jerry doesn't want a sweet drink, choosing the only beverage that was neither chocolate-based nor blended.
2. The person who ordered a smoothie also chose the most elaborate egg option and did not order a chocolate-based muffin.
3. Tasha's drink was served hot, but she did not order tea.
4. The person who ordered fried eggs paired them with the chocolate chip muffin.
5. Blueberry muffins were ordered by the person who chose neither hot tea nor fried eggs.
6. The cranberry white chocolate muffin went with scrambled eggs and was ordered by someone who did not want a smoothie.
7. Jerry couldn't decide between a muffin with chocolate or a fruit, so he got one with both.
