## Choosing Best Electric Toothbrush

I am interested in using an electric toothbrush after my dentist explained to me the benefits of it.

I did not think that it would be necessary to use a rechargeable toothbrush because you simply have to increase the amount of time that you brush your teeth with a manual toothbrush.

However, my dentist said that there are features that rechargeable toothbrushes which make it more effective in getting rid of plaque. Because of that, people who use an electric toothbrush will have healthier teeth and gums.

It convinced me to start using one more so when she told me that I am not able to clean my teeth thoroughly. I did a research online to know what brand and model to get.

### Philips Sonicare ExpertClean

There are a lot of reviews that said Philips Sonicare ExpertClean is a great toothbrush to use because of its features unique to Philips Sonicare.

Having a problem with sensitive teeth? Looking so hard for toothbrush brands that could address to the special needs of your teeth? I have also been suffering with sensitive teeth that I find it really tough to look out for a toothbrush that could provide maximum protection and cleaning with my sensitive teeth.

Good thing I was able to buy Philips Sonicare FlexCare Rechargeable Sonic Toothbrush with Sanitizer. I tell you, this product is a certified must-have not only because you have sensitive teeth like me but because it has various features that really addresses to the different brushing needs of different people. It basically has three brushing modes: Clean, Sensitive and Massage. I've been using Sensitive mode frequently but I'm also into Massage and Clean mode every now and then. The product also features two brushing routines with MaxCare and GoCare. Sonicare FlexCare would surely answer to whatever brushing necessities you need to have.

## Philips Sonicare FlexCare Platinum With UV Sanitizer

I feel really pleased with Sonicare ExpertClean but I think choosing a new Sonicare FlexCare Platinum could make me happy even more. Old Sonicare worked great for me that I recommended my friends to have it as well. However, when I tried **Philips Sonicare FlexCare Platinum Rechargeable Sonic Toothbrush with Sanitizer** first hand, I could attest that this model is way better than Elite. Its ProResult brush head removes plaque better than Elite and it feels more comfortable to use since its vibration is greatly reduced by 80% as compared to that of Elite.

# Electric ToothbrushHQ

<https://www.electrictoothbrushhq.com/philips-sonicare/>

It has a 2-minute timer that ensures every user only get to have the recommended dental brushing time which is 2 minutes. This product is very rechargeable. It has a green light indicating battery charge and would turn into yellow whenever the toothbrush needs some charging. This Sonicare FlexCare is highly recommended to everyone and once you choose to have it, you really wouldn't regret you bought it.
