

Discipleship Pathway

By Invitation Only

Overview

The Discipleship Pathway is a leadership and mentorship pathway for people who want to grow in leadership, purpose, responsibility, and practical life development.

This pathway includes leadership, mentorship, outreach, financial literacy, and personal development.

👉 **This pathway is only available to those who have planted a seed through this ministry.**

It is not open to everyone.

Invitations are given based on alignment, consistency, character, and readiness to grow.

Invitation Process

Entry is by invitation only.

There is an approximate 30-day vetting and observation process before invitations are extended.

This pathway is not fully online. Some parts may include in-person mentorship, gatherings, outreach, and practical involvement where appropriate.

If invited to continue the process, an email will be sent with further instructions and next steps.

Important Note

As part of this pathway, participants may also be introduced to a business platform we use for leadership development, communication skills, financial education, and personal responsibility.

The focus is not simply business, but developing people holistically through leadership, mentorship, community, and practical life application.

Final Note

This pathway is for people who are serious about growth, leadership, serving others, and becoming people of influence and responsibility.
