

Loveland City Schools Postsecondary Career Pathways

Career Cluster: *Supply Chain and Transportation*

This career group is designed to assist with planning for a career in the field of transportation, distribution and logistics. School counselors assist in designing an academic pathway that includes all core graduation requirements and applicable electives to prepare properly for postsecondary education. Considerations pertaining to prerequisite courses, corequisite courses, leveling, teacher recommendations and class availability play a role in developing a specific and personalized plan that will maximize opportunities for success.

Interests/ Skills/ Traits Associated with Transportation, Distribution and Logistics

Learners in this area need a solid background in communications, math, science and technology. This diverse Career Cluster exposes students to careers and businesses involved in the planning, management, and movement of people, materials, and products by road, air, rail and water. It also includes related professional and technical support services such as infrastructure planning and management, logistic services, and the maintenance of mobile equipment and facilities.

Focused Elective Options

Focused electives are only suggestions. Students may explore other areas of study to fulfill elective requirements.
