I have read the Mexico School District Technology Usage policy, regulations, and etiquette guidelines in the student handbook. I understand that violations of these provisions may result in disciplinary action taken against my student within my care including, but not limited to, suspension or revocation of my student's access to district technology, and suspension or expulsion from school.

I understand that:

- my student's usage of district technology is not private
- the school district may monitor my student's use of district technology
 - accessing browser logs, e-mail logs, and any other history of use
- the district may intercept all forms of communications sent, received, or stored by the student
- before the student is allowed to use district technology, he/she will have to sign a student technology agreement agreeing to district technology student-use policies

I agree to be responsible for any cost or damages arising from my child's misuse of technology resources including, but not limited to:

- taking keys off, prying mouse pads, etching words or pictures into the screen or Chromebook itself, throwing, hitting, kicking the Chromebook, carrying the Chromebook by the screen, etc.

I understand that repeated misuse of technology resources will result in fines and/or loss of Chromebook privileges.

If a Chromebook is damaged beyond repair, the student will be responsible for the replacement cost, which will be determined based on the device's age and current replacement value. If the Chromebook can be repaired, the student will be charged the actual cost of the repair.

Student's Name: _____

Student's Building: _____

☐ understand and agree to the district technology policies

Parent's Name: _____

Parent's Signature: _____
