Follow-ups and Announcements Brentwood Reid

Presentations

- Mt. Hood Volcano Hazards Jay Wilson
-Community milling - group think, people trying to establish SA based on their experience and knowledge stay-go/safe-dangerous.

-Lahar estimated 30 minutes to the Villages of Mt. Hood, Government Camp could be only minutes.

-Volcanoes can be active without a lot of hazard, until it isn't and its too late

-Public officials have to make black and white decisions based on the info scientists (specialists.) give them

-See and hear more from Jay Wilson on Jan 8th 1800-2000 for First Mountain Science Night at Rendezvous

- What it's like to staff a fire lookout tower Michelle Richardson

Updates

No work group updates this month. However, feel free to provide an update during the round robin.

Grant Updates

Any grant updates?

Ben Sprouls ODF has new mapping system, ODF to possibly bring on AntFarm as a contractor. Sign up with Ben or Dawn Sleight. Private land grants, ¼ increment parcels of land. More to come.

AntFarm on second phase of KOKO grant opportunity, Americorps planning grant in the works

Title 3 open for more rounds

Next Month

- Commissioner Diana Helm will likely attend.
- Mid-year Action Plan Review – We will review our accomplishments since June and assess if we are on course for accomplishing our goals before fire season. Work groups are welcome to provide slides for a power point presentation.

Send pics of you work group to Brentwood to add to document

Member Round Table 25 mins
