

Move It Addition (Directions)

Materials: gameboard, pair of dice, 6 markers of one type (or color) for each player

Number of players: 2

Directions:

1. Players take turns.
2. Roll the dice and add the dots to find the sum.
3. Place a marker on that number.
4. If the number already has an opponent's marker on it, the player may "move" that marker off the board and return the marker to the opponent.
5. The game ends when one player has used all of their markers.

Variation: Use the additional game board with larger numbers. Players can use three dice and find the sum.

Move It Addition

2	9	7	6
7	10	3	8
8	4	9	5
6	11	5	10
12	7	4	9

Move It Addition

18	14	12	4
16	4	10	11
4	7	8	3
6	10	5	10
14	8	18	4
