

When commissioning me using the Google Forms, there is no need to make the description extremely detailed. Keep it simple and concise. Show me an example, show me your character(s), explain in a few words what you have in mind! If your description caught our interest, I will contact you once again either per Discord, Email, Furaffinity Notes, Deviantart Notes or Twitter and we can discuss the exact details. :)

## What I would enjoy drawing:

### Characters:

- Furies, Scalies, Monsters, Pokemon, Digimon or any other fantasy creatures.
- Some types of insects like butterfly or moth anthros maybe... Best ask me, if unsure!
- Any genders
- Any body type except for extremes: extremes being anorexic, obese or extremely muscular characters. I enjoy drawing average, fit, chubby builds, both more feminine or more masculine or anything in-between.

### Clothing:

- Any sort of clothes that can also be bought in real life
- Casual clothes
- Fantasy clothes
- Armor (like in the Elder Scrolls/ The Witcher ... especially metal x leather/cloth combos - preferably not super super detailed :D)
- Normal sized weapons/guns
- Cyber Punk, Tech Wear, any modern stuff...
- I can not actually think of many clothes that I would NOT draw, but if you're unsure, of course you may ask me!

### Backgrounds:

- Nature (Fields, mountains, forests, grass, water, flowers, moss etc. ...)
- Simple rooms (like desk or bed views)
- I enjoy adding little details in pictures (extra objects in the background, to make it more personal -- I definitely like working with real-life images too if you want me to make something similar to a place you like)
- Slice-of-Life
- Fantasy places
- Anything I might have not mentioned? Ask me and I will update it!

## What I would not enjoy drawing:

### Characters:

- Some types of insects, like spiders for example. As I've mentioned above, feel free to ask me, if you're uncertain.
- Humans or very humanoid characters. (Human facial anatomy is not my forte)
- Extra huge genitals
- I refuse to draw any fetish stuff like cub porn, scat, golden showers, vore, inflation... you know, I draw more vanilla stuff. I do not mind bondage, latex, and other more "average" kinks or fetishes. But no extremes like the ones mentioned above...
- I refuse to draw any political related images

### Clothes:

- I do not enjoy drawing mechas or a lot of robot parts. Some cyber body parts are okay, but I do not want the character to be riding a robot/mecha or being one itself.
- I do not enjoy drawing extremely huge guns/weapons (eg. like in some anime/manga where the gun is the size of the character or larger and somehow holds it in one hand without breaking a sweat)

### Backgrounds:

- Complex backgrounds that imply a **lot** of perspective work: cities, very intricate streets. Some of those I can hack my way through, and focus on straight lines and field of depth. That makes it easier for me to draw such backgrounds. But if possible I would like to avoid drawing city squares, panoramas, or entire street views.
