This Wiki template was made by [@pangalangaraw](#), and created during the [Version 0.3.0](#) of the [Honkai: Nexus Anima](#) closed beta test. Both the contents & the wiki page's layout are subject to change and will be updated accordingly once the game is released. Additionally, I've taken the liberty of adding certain sections to this page more befitting of a typical wiki but are not found in the HNA one. Feel free to cut them out if you wish.

[BURGER] is an [Upcoming Eidos](#) in [Honkai: Nexus Anima](#).

Small synopsis of the character. Any locations, factions, or people mentioned can be [formatted like this](#). The original wiki redirects the viewer to that specific thing's [wikipedia](#). Up to you if they'll actually lead anywhere, or if you just put it in for [the funnies](#). Feel free to add footnotes like the og wiki does.

His [Anima](#) is [Bladehound](#).
