Notes

This short form template is designed for a proposal to the African Guild, within the SingularityNET Ambassador Program. The format is intended for projects with 1-2 participants, lasting one or two months, and with a tentative budget of up to \$200 only.

Such projects should be capable of ***propagating the growth of the SingularityNet African Guild initiatives within Africa only***. Members with excellent initiatives in this regard are open to making submissions subject to review by the core team of the Guild as well as wide acceptance by the entire membership of the African Guild.

We ask for this type of proposal to take the reviewer no more than 15-30 minutes to study and respond to. This concise format, with a total word count well under 500 words, is ideal for initiatives already researched and planned. The form should take less than an hour to complete.

We value any feedback, positive or otherwise, regarding your experiences preparing a proposal for the Singularity Net African Ambassadors Guild, whether you use this template or not.
