

Dear ChatPeople ~

**Re: Join us for Cities Rising Week!**

As you may know, during the week of January 11 to 15 2021, [Marilyn Hamilton and Beth Sanders](#) will be convening a super-charged opening week of daily sessions titled "**Cities Rising for a Regenerative World**" ([details are here](#)).

The theme of Cities Rising is to explore cities and communities as dynamic living systems. This week-long exploration will offer a variety of lenses, tools and practices — and opportunities for us to reflect — that will enable us to best serve our cities and communities so that they can best serve a thriving regenerative world. The intention is to create an iterative, interactive experience with *diversity*, that will build over the week as we work with regenerative tools and practices.

## How To Join Cities Rising - The Details
