

Dr. Dennis Harper is a visionary in the realm of physical medicine. His hands on skill set combined with the Chiropractic Creed of “Top down, inside out” approach to medicine, and 43+ years in practice have honed his differential diagnostic skills to a razors edge. He has been an instrumental leader in shaping the State of Idaho’s Chiropractic profession. He has molded the laws, standards, and policies in his region and continues to contribute to the advancement of healthcare on a national level. He has been involved in advancing a Naturopathic Licensing Bill in Idaho, working tirelessly to ensure that patients have access to competent Alternative Health Care Practices. Dr. Harper has treated literally thousands of patients. Implementing his proprietary Harper Restoration Treatments, he has performed more than 50,000 Proprietary HRS injections since 2007.

Through education, seminars, and mentorship, Dr. Harper strives to improve healthcare practices on a broader scale, expanding his impact far beyond the walls of his practice. His dynamically abundant scope of medical expertise has consistently allowed him to deliver highly effective and accurate patient examinations and diagnosis. As a result, these pinpoint examination and diagnostic techniques will provide a lasting legacy to the Health Care Community.
