If requested, it can include an in-depth discussion of our version of the [Power Flower](#).

How to Bring Power to Patrons - A discussion defining power and debunking myths around power. This also includes exploring five ways we can apply a shared power lens to our services to patrons and communities.

Questions, Not Answers: How to Engage Others in Advancing Equity - An exploration of how we can engage in difficult conversations with people about issues related to justice and equity. This includes identifying and addressing cognitive, emotional, and behavioral blocks that can undermine, slow, or halt progress in our work.
