Church Circle - Acts 2:36–47

After working through the 10 Commands of Christ disciples identify the characteristics of a healthy church and begin to work together to create a church start.

- They place a symbol within the circle if they are fulfilling that function.
- The symbol is outside the circle if they are not displaying that function.
- A dotted circle represents a discipleship group that has not yet committed to be church together.
- A solid line shows the group has committed to be a church.[i]
