 - Discourse post with highlights [here](#)
 - New Asmbly wiki page with details [here](#)

- **Updates at Asmbly**

- OpenPath
 - All active members will be receiving an email from OpenPath in the next few weeks
 - OP will sync with Neon and allow you to use your phone to get into the space (key fobs still optional by request)
- signNow
 - New platform we will use for all agreements
 - New member agreement through signNow will be sent with OpenPath
- Old GSuite has been closed
 - Links to docs in the old Gsuite will be broken, help us fix them by reporting in this [Discourse thread](#) when you come across them
- [Fundraiser](#)
 - We're up to \$8,775 in donations, almost 25% of our goal!
 - If you haven't shared the fundraiser please do so. It is especially impactful if you can share with others why it matters to you or some improvement you are excited to see made.

- **Disposition**

- Many items are going to be completely up for grabs. We'll use Discourse to post about those and have the classroom as a staging area - see [Operations/Disposition](#) category posts
 - A big part of this will be getting help with taking items to donate/recycle/dispose when the time for them to be claimed expires

- **Work days**

- Collecting ideas in the Stewards meeting on Monday 7/12

- **Upcoming event - [Texas Woodworking Festival](#)**

- We have an exhibitor table at TWF and are excited to spread the word about Asmbly there!
 - Event details:
 - September 4, 2021
 - 11a-5p
 - Fair Market
 - 1100 E 5th St, Austin, TX 78702
 - We'd like to have a really impressive display of what can be done at Asmbly and also have some small giveaway items.
 - Would like to make a prize wheel (similar to [this](#)) to use for this and other events. The wheel could be cut on the CNC and the pizza slice segments of the wheel could be made on the lasers so that it's very customizable.
 - If you're interested in helping with this event email valerie@asmbly.org
 - Even if you aren't interested in helping, I highly recommend checking out the event!
