

Lesson Plan Template

Lesson Title: <i>(Describe the content around which this lesson is built.)</i>			
Bridge-in (Motivation):		Resources:	
Pre-Assessment:		Resources:	
Learning theories/approaches used: <i>Describe how this content should be ideally taught so that learning outcomes will be met?</i> <i>Describe how this approach relates to learning theories?</i>			
Learning Outcomes: <i>What is the subject, and what are the learning outcomes?</i>			
Time	Instructional Process	Learner's Activities	Resources
	Beginning		
	Middle		
	End		
Projected Challenges: <i>Describe the challenges in teaching/learning this content.</i>			
Post-Assessment:			

Learner Support:	
Type of learner support: Identify the type of learner support you would recommend for your lesson or course (for example, peer-to-peer support)	
Rationale What is the rationale behind choosing the learner support above?	
Training (if applicable) Will the chosen learner support require training?	
Resources What are some of the resources needed to execute the chosen learner support?	
Timeframe What is the timeframe for successfully carrying out the learner support activities?	
Your role What is your role during the implementation of the learner support?	
Risks involved What may be some of the risks involved while implementing the learner support programme?	
Possible solutions What are some of the possible solutions to the risks identified above?
