

Privacy Policy

A free Mutant Creatures Minecraft Mod application has been made by GamechangerWorld. Our policies about the gathering, handling, and sharing of users' personal information should be known to app users.

You also give our app permission to access and modify files on your device, share your personal information with its service providers and SDK, and utilize the file system on your device. Unless the privacy policy specifies differently, all terms used here and on the Mutant Creatures Minecraft Mod page have the same meaning.

To enhance the application, we will make use of the sensitive data we gather. Other than what is specified in this privacy statement, we will not use or disclose your information.

Collection and use of information

The app uses outside services that might gather information that can be used to identify you. Links to the privacy statements of the third-party service providers that the application uses:

- Unity <https://unity3d.com/ru/legal/privacy-policy>
- Admob <https://support.google.com/admob/answer/6128543?hl=en>
- Google Play Services <https://www.google.com/policies/privacy/>

Automation of data collection and transmission

Android ad identifiers are gathered in accordance with each advertising service's privacy policy, which can be disabled if desired. You can find instructions to reset or delete advertising identifiers in the Android settings menu.

With the help of Google Mobile Advertising SDK features like the ad restriction feature, it is also possible to halt the dissemination of advertising identifiers and other data.

Data manipulation

For the purposes of analytics, fraud prevention, and advertising, the Google Mobile Advertising SDK automatically gathers and transmits different kinds of data.

Records and Archives

Every piece of information about Minecraft on your device is monitored by us. Everything is kept in storage only temporarily. Users are powerless to stop this data from being collected because it is required for the program to function. For instance, we could see if Minecraft is installed.

A record of the app's recent activities

We may track your behavior within our application and gather information about the Minecraft-related apps you have installed on your phone in order to better our application and make it easier to use.

Performance indicators and app specifics

We never give personal information about users to unidentified parties. Our top priority is ensuring the safety and security of our users. Data comes from bug logs and is analytical. To enhance the usability of our products, we keep an eye out for glitches and program crashes.

Customers of Services

We might work together with other businesses and people to distribute our app, enhance its usability, offer associated services, or assist us in conducting usage research.

We want app users to be aware that third parties may access their personal information in order to carry out tasks on our behalf, which is why we provide them with this information. They are not allowed by their policies to share or use this information for any other purpose.

Information and privacy for children

Children under the age of thirteen should not use our app. Children under the age of 13 may use our app with parental consent. We do not intentionally gather personal data from minors younger than thirteen. If we inadvertently obtain information from such users, all servers—including those to which information is transmitted—will promptly remove the information.

If you are your child's parent or legal guardian and would like us to take the necessary action, please email us using the form on the application page.

Sensitive and private user information

Personal user data is stored safely by the Mutant Creatures Minecraft Mod program even during transmission (e.g., via HTTPS).

The user must grant permission for the Mutant Creatures Minecraft Mod program to access this data, with the exception of a few exceptional circumstances outlined in the application's policies.

Whereabouts

For the purpose of gathering app statistics, we only gather an approximation of your location by country and/or region, not your precise location.

Protection

We work hard to protect your personal information only in ways that are allowed by law because we appreciate your trust. You should be informed, though, that there isn't presently a technology that can ensure total security and dependability when it comes to the transmission or storage of electronic data. We are unable to ensure total security.

Links to external websites appear in our app's ads.

There might be links to external websites within our app. Please be advised that these third-party websites, which might contain advertisements, are not under our control. We thus strongly advise you to go over these websites' privacy policies. Regarding information, privacy, or other policies on external websites or services that we have no control over, we are not liable.

Copyright Retention

In accordance with the Microsoft Services Agreement, the term "Minecraft", and the product we use to share with other players, is public domain, not copyrighted.

<https://www.microsoft.com/en-us/servicesagreement>

If the user downloads our program, each application and game modification is installed independently. If the person who made the modification can provide proof that they were involved in its development, we will be pleased to take it down from our application. The sources used for modifications are easily accessible and obtainable on the Internet.

Changes to this privacy statement

Our privacy policy changes from time to time. As a result, we encourage you to check this page regularly for updates. Privacy policy updates will be posted on this page to notify you of any changes.
