Dear Senator Ted Cruz (*or insert other representatives*),

My name is Madelyn Morneault (*or insert your own name*), I am a born and raised Texan (*optional*), a proud patriot of the United States of America, and I am raising my voice to join the long overdue movement calling for your immediate resignation from the United States Senate.

January 6, 2021 has already crashed and burned into infamy; if you continue to place your unfounded loyalty in the man undermining our country's once great democracy, you too, will be eternally consumed by the flames.

The man you serve is a traitor to the United States who actively incited a siege on our nation's capital. The seditious mob attempting to overturn the results of our fairly conducted presidential election can only be described as *treasonous terrorists*. By objecting to certify Joe Biden's electoral college victory, you made the choice to join hand in hand with that same act of treason. The fact that you and so many other traitors of congress attempted to fulfill the wishes of these domestic terrorists *after* their failed coup should not and *will not* be overlooked by the American people. 146 other Republicans made the same deeply disappointing decision you did; it was 147 objections too many.

There is no point in listing your crimes, because as an educated lawmaker you already know full well every criminal action you took to facilitate and encourage this domestic terrorist attack. If you deny or claim to misunderstand *why* you are now classified as a criminal, I seriously question your understanding of our legislative system and therefore, arrive at the same conclusion: you are unfit for office.

This is your final opportunity to act in the best interest of your constituents and the American people. I sincerely hope that you allow yourself to choose what is best for the now fragile future of our nation. We take pride in calling ourselves "the home of the brave"; this is your chance to exercise patriotic bravery by choosing to stand up for what you already know is right. History was written on that fateful Wednesday, ending in 5 fatalities and nation-wide trauma. The choice is yours to decide which side of history your name is written; choose wisely or lose your right to call yourself a public servant. The American people are waiting.

Sincerely,

A Gravely Concerned Citizen
