

hello :3

hello!!!

I WILL NOT BE UPDATING THIS ANYMORE SINCE I AM NOT LOOKING FOR ANY NEW YT ALTS !!! THERES ALREADY SO MUCH ON HERE!!

heres my really cool google doc with a few yt alternatives that you would definitely want to use !

this doc is currently a wip, which means i will try and remember to actively add more youtube alternatives on here for you guys :3

OH AND.. if you see me editing this doc or adding some stuff here live, hi!!!
^ _ ^

i will also use/take some yt alternative suggestions from the spacehey blog post and put them here ANDD on the blog post!!!

so if you have ANY suggestions that arent on the list yet, please comment it down on the post!

i might eventually post this doc on other platforms like pinterest, yt, etc... idk.

ALSO PLEASE DO KNOW THAT I AM NOT FORCING YOU OR OTHERS TO USE THESE WEBSITES!!! YOU DO NOT HAVE TO USE THEM! I DO NOT CARE IF YOU WANT TO STICK TO YT, ITS OKAY!!!

i just want to provide some websites for others (that do not enjoy using yt anymore) to explore!

anyway, have a great day/night/outer space while surfing on the interwebz!!!

More Future Updates

Hey yo. I added some cool stuff recently. You might've seen it in the updates video. I don't have much to say, but FulpTube will probably get a new server in a few months, so wait for that. Also, the site is really slow sometimes so that's also another reason why i'm planning to get another server.

CrazyFrog is also helping on development, and here are the things that should be coming to your way:

- Channel Customization Overhaul
 - An actual player that doesn't suck
 - Bug fixes
 - And much... much... more.

firefox

if you want to just stop using google then you can switch web browsers !

firefox is a good web browser to use because it has some pretty good features on it. it lets you have an eye dropper tool, it blocks ad trackers, and lets you have private browsing!!!

<https://www.firefox.com/en-US/>

and if you dont want ads while using firefox, then use ublock origin :3

<https://ublockorigin.com/>

also, this alternative idea was by this person, tysm for telling me this ! ^_^

TheStrangestOfMen 54 minutes ago

Firefox + UBlock Origin its an alternative too if that what bothers you are ads (also free)
The only one here i see that could work FOR ME is newgrounds, but only for the cool people that have actually cool stuff to show off
and please do not use internet archive as a replacement for youtube lol

make ur own site!

another way to upload videos online is to make a website !

sadly neocities used some ai thing in their editor and if you do not want to use that, then try out nekoweb!

<https://nekoweb.org/>

<https://neocities.org/>

Also, if you dont know how to code html/css/javascript, you can use w3schools ! its basically like your guide to help you code some thingys if you forget some code or if you have no idea how to code. Its a little boring and plain but trust me, it helps..
