Set up DASH Integration with DHA Vendors

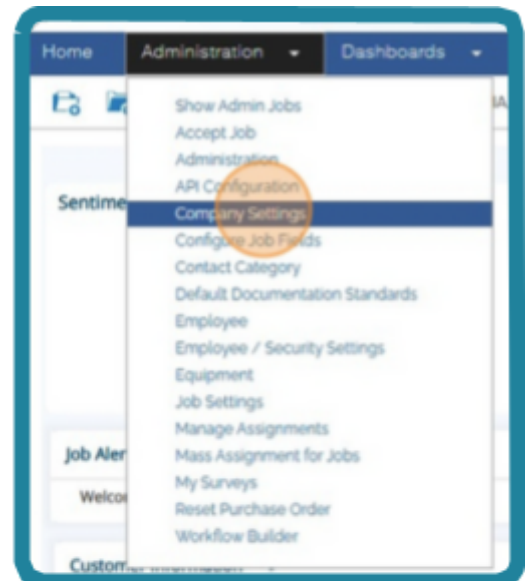

Overview

This guide walks you through the process of setting up a DHA Vendor integration in DASH. Follow the steps below after logging into your DASH Account.

Note: If you do not have the correct permissions to set up the integration, please contact your administrator.

DHA DASH Integration

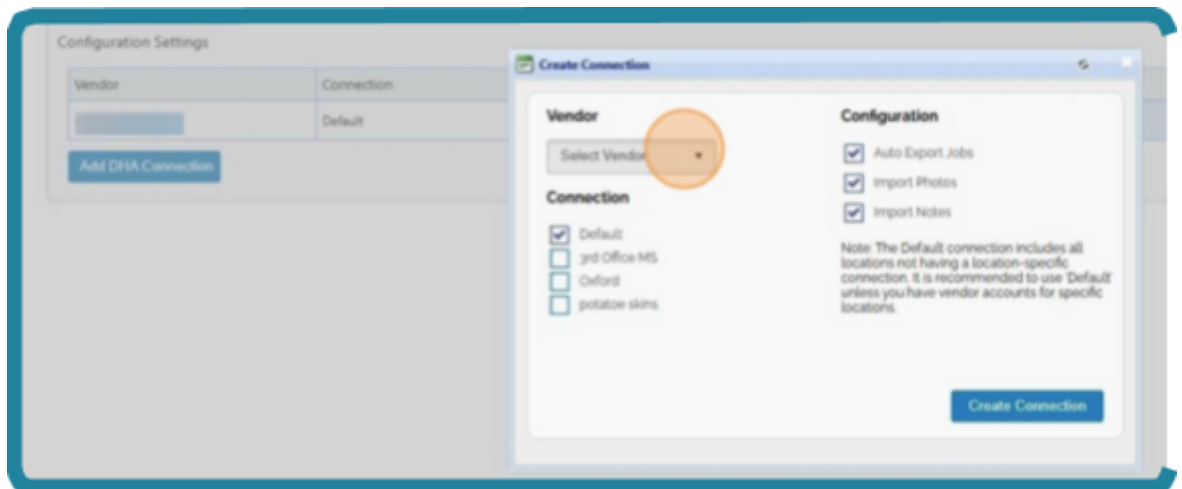

1. Hover over the **Administration** tab in DASH Web.
2. Select **Company Settings** from the drop-down menu.
3. Click **DHA Vendor Integrations**.

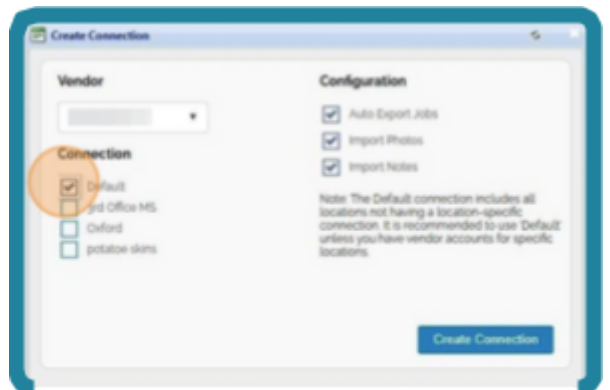

4. Click the **Add DHA Connection** button.

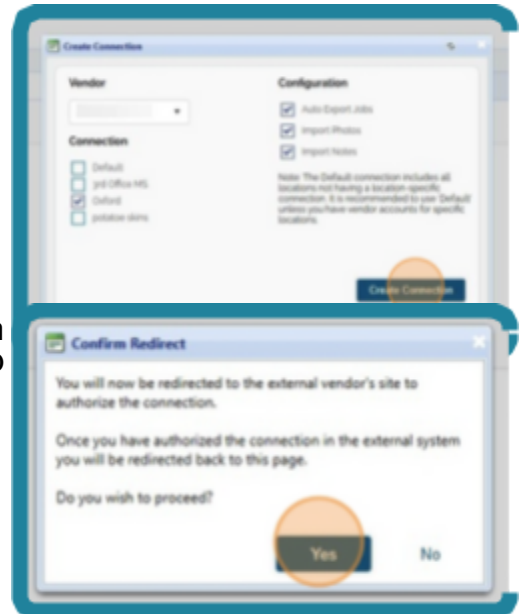

5. Select a **Vendor** from the drop-down list.

6. Choose which locations you want connected to the vendor account. "**Default**" is recommended unless you need specific locations omitted or connected to a different account.

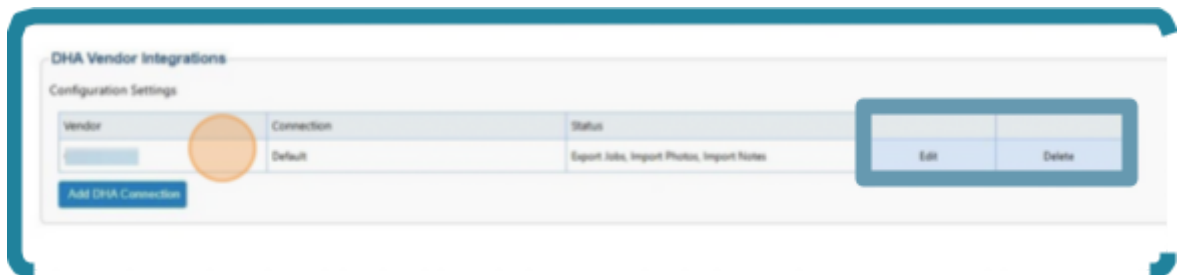

7. Click the Create Connection button.

8. Click Yes for the pop up menu which appears. You will then be redirected to the vendor site to authorize the connection.

9. After authorization, you will see the new integration in DASH. You can Edit or Delete the connection here.

Support

Our support specialists are here to help. Click the Live Support link on any page in the web application, or contact us through the channels below.
