

Last ditch effort. Looks like I am heading down to Rolla tomorrow night (it is 6+ hours for me, so I can't head out Saturday morning) unless someone has a large vehicle to move them. So maybe I will spend the night in St. Louis before heading to Rolla in the morning. Then will head back to St. Louis, on to New London and then Mt. Pleasant and home. Unless, of course, someone has a better idea on how to get the remaining dogs from Rolla to St. Louis. At least I can check out the new meeting spots in New London and Mt. Pleasant. 😊

This is what we need Thursday evening:

Rolla-St. Louis - 6 large dogs and 1 smaller senior

Iowa-Minnesota

St. Louis-New London: 2 sets of large puppies
New London-Mt. Pleasant: lots to choose from
XS to XL

Passenger updates

#10-14 are now about 25 lb each

#51 is now Pixie. The rescue could not secure a foster for Tanner, but had someone jump at Pixie.

#49 Joaquin will be waiting until next transport.

Please note the following meeting spot changes effective 9/23/23:

Springfield, IL: Cotton Hill United Methodist Church, 5931 N. Cotton Hill Road

New London, MO (formerly Troy): Love's Travel Stop 17550 MO-19

Mt. Pleasant, IA: All God's Creatures (not open yet) 2205 E. Washington Street
(We are removing the Taylor stop, so times may change a bit.)

*****ADDITIONAL PASSENGERS MAY BE ADDED*****

15-20 minutes added to each leg for transfer and potty breaks, cleaning crates or just plain old loving on the dogs. All legs will be monitored. Please email us directly at PawsTransports@gmail.com if you are able to assist. If you would like to volunteer only as BACKUP if the leg doesn't fill, please indicate clearly on the email that you are volunteering only for backup. I also appreciate offers for backup if a leg is filled should an emergency occur.

THE FINE PRINT: As a volunteer transport coordinator, we are dependent on what the senders tell us about the passengers' temperaments. The very nature of rescue transport creates some risk for those who participate in it; even a good-natured dog may find it stressful to be passed from stranger to stranger and cooped up with unfamiliar dogs and, in consequence, may act in uncharacteristic ways. No one associated with this transport can accept liability for any accidents or incidents that may occur during the transport.

Passengers listed in red still need a ride. Green ones are good to go!
