A reminder that service requires service and that character matters in the service you do or the hours you report.

Four Pillars of NHS

- **SCHOLARSHIP**- A commitment to learning. As NHS scholar you are committed to putting in your best work regardless of the reward.
- **SERVICE**- As an NHS member, your focus should be in working to make your school and community a better place. The willingness to work for the benefit of those in need without compensation or recognition is an essential factor in service.
- **LEADERSHIP**- Leadership is taking the initiative to aid others in a wholesome manner throughout your daily activities. Leaders sacrifice their personal interests in order to yield to the needs of other.
- **CHARACTER**- Character is who we are even when no one is watching. A Good Character means doing the right thing just because it is right to do what is right.
