

Want to potentially do Ms. Manderville a huge favor?

As I'm applying to teaching jobs for next year, I am accumulating letters of recommendation (like you all will have to do for college next year). If you feel like you would want to potentially write me a recommendation letter for me to include with those from my supervisors, I would really appreciate it! Getting a student's view on my teaching this year would show a different perspective and a very important one. I'd ideally like to have it relatively soon since I'm actively applying, and it should be about a page in length.

If you think you'd like to do this, please let me know!

Either in person or: tmanderville@umass.edu

If you are in 11.6 I super appreciate you, but I don't teach your class so you doing this for me probably wouldn't make sense!
