Compile all figures and tables on the last section.

List of Figure Captions

Figure	Caption
Figure 1	Sample 1
Figure 2	Sample 2

Figure 1: Sample 1 (Example)

Figure 2: Sample 2 (Example)

List of Table and Caption

Table	Caption
Table 1	Sample 3

Table 1: Sample 3 (Example)

Welding Parameters			
Specimen	Rotational Speed (RPM)	Travel Speed (mm/min)	Travel Direction
1	1600	16	Backward
2	1600	16	Forward
3	910	16	Backward
4	910	16	Forward

IMPORTANT REMINDER

If figures/diagrams are taken (i.e., simply copied) from any other publication (e.g. book or journal), there is a written permission required. The corresponding form to request this permission from the corresponding publisher is attached.

In addition, each figure caption must contain the following statement then:

“Reprinted with permission from XXX publishers”/“printed with permission from XXX”.

Alternatives:

- to redraw the figure/diagram where possible (then only the classical reference as a number in squared brackets is required in the figure caption)
- to take a figure from a Springer publication (= the same publisher). Then there is no need for a written permission based on the attached form but the following statement must be included in the figure caption: "Reprinted with permission from SpringerNature publishers".

The publisher is checking each figure and they will not proceed a manuscript if this is not properly done.
