

This is what we learned and practiced for our Zoom **Event #1, Hawaiian for Starters**, 2/5/22. This was assuming everyone who attended had no experience with Hawaiian whatsoever. So if you're starting too, this makes for a good template for how you can learn/practice on your own (or with us in the future)! It's a good idea to have [Nouns 1](#) memorized.

---

1. Went over vocab [Hawaiian Starter Vocab - Nouns 1] and pronunciation

2. Learned:

Kēia = This [close to speaker]

Kēnā = That [close to listener]

Kēlā = That [far away from speaker and listener]

3. Learned:

-He aha kēia? He \_\_\_ kēnā. (= What is this? That is a \_\_\_)

-He aha kēlā? He \_\_\_ kēlā. (= What is that? That is a \_\_\_)

→ Practiced with Powerpoint [images of Nouns from above vocab list]

- Exercises vocab and listening (if speaker used "kēia," respond with "kēnā;" "kēnā" with "kēia;" "kēlā" with "kēlā")

4. Learned:

**Pronouns -**

au = I

'oe = You

'o ia = He / She

'o Name = Name

5. Practiced w/Powerpoint images:

-He aha 'o ia? He \_\_\_ 'o ia.

-He aha [ka wahine]? He [kumu] 'o ia.

6. Practiced out loud:

Game where you describe what you are in English, and finish with the Hawaiian "He aha au?" ;

Response is "He \_\_\_ 'oe!"
