Previous Month (Oct.):	Current Month (Nov.):	Year to Date:
95%	96%	95%

## Enrollment

<b>Spring 2019:</b> 579	<b>Current:</b> Preschool: 143 Kindergarten: 143 1st grade: 154 2nd grade: 142 Total: 582
<b>Fall 2019:</b> 579	

## Implementation of Professional Development and Curriculum:

### Building PD Focus for 2019-20 School year:

- Grade Level PD will focus on implementation of new Bridges Math resources. This will be new Universal Instruction throughout the building in order to better match the district grade level outcomes.
- Grade levels will also be working on continued implementation during their PLC time as well as continued work around assessments and interventions to discuss student needs and best practices to meet the needs of ALL students.
- Building level professional development will continue to focus on PBIS implementation with students and building wide. This is a full building system for creating a focus on positive behavior and interventions.

### Implementation Expectations:

- Northeast building and classrooms will be a welcoming and safe place for students, teachers will use strategies learned through PD to support positive behavior and following schoolwide expectations.
- Teachers will be implementing new math resources with fidelity, they will also be meeting and working with grade level teams to discuss research based interventions strategies to help all students succeed.

### Current Happenings:

- During the month of December we are continuing to focus on Respect. We will also be working to raise money for Hooves and Paws by doing a Pennies for Paws coin drive.
- The building is working on refining our Way to Go incentive system.
- For math, teachers are continuing to work as grade level teams on implementation of the new resources and working to validate the curriculum, resources and assessments. This is a heavy year and teachers are putting in a lot of hard work to be sure they are implementing the curriculum and resources fully. We will be having Math Planning PD for teachers in in December to help with unit planning and instructional support.

## **Northeast Happenings:**

During the month of November teachers paired up with another grade and worked together to plan an activity that both classes could do together. Second grade students worked with kindergarten students and first grade students worked with preschool kiddos. It was a great time for students to get to know and work with new friends. This group of students pictured below worked on disguising turkeys.

Another group of Kindergarten and Second grade students made countdown chains in preparation for the holiday season!
