Student Comments

“Really Making you think for yourself.”

“Awesome policy knowledge.”

“Excellent teacher.”

“Made me think for myself and learn more efficiently.”

“It taught me a lot about the policy side of agriculture.”

“He was a great teacher.”

“Homeworks forced you to analyze what was discussed in class.”

“Homework was useful and helped reinforce the material and discussions.”

“Real world stories and anecdotes were beneficial.”

“Very helpful and responded promptly to emails.”

“This course was challenging, but Professor Russell kept it interesting. I found that because of his input and excitement with the subject matter, I explored topics more in depth which allowed me to gain even more knowledge.”

“Professor Russell was consistently involved in the course, more so than I have seen from other online instructors. He was always available, provided additional resources, and furthered weekly discussions by posting questions that would help students better understand the topic through research and discussion.”

“Professor Russell was an excellent professor and didn't rely on a power point in his lectures. He engaged the class more in his discussions as a result. Professor Russell also encouraged seeking help from him after classes during his office hours which was very beneficial. Professor Russell did an excellent job teaching this course and balancing that duty in the process of handling unfortunate personal circumstances. I learned more about finances from Professor Russell in the two classes I had with him than I did throughout the business program. I wish I would have had the opportunity to be in more of his classes.”

“Levi Russell is the Champ! A raise needed.”

“Best professor in the history of ottawa university. Might want to tenure this dude before a better university swoops him up.”
