

Commercial Equipment Services in Chicago

Meta Description (155 characters):

Commercial equipment repair, rentals, and sewer and water takeoffs for Chicago contractors—powered by A&A Equipment and Supply.

Commercial Equipment Services for Chicago’s Contractors and Municipal Crews

At [A&A Equipment and Supply](#), we help contractors, municipalities, and utility teams across Chicago stay on schedule with dependable small engine equipment repair, rentals, and material takeoff services. Our in-house technicians, extensive inventory, and quick turnaround times mean your crews can stay focused on production—not downtime.

[For more than 40 years](#), we have helped professionals in the field maintain the life of their tools, while providing power equipment repair, short-term rentals like compactors or generators, and support for planning sewer projects with an eye on precision, reliability, and service everyone can count on.

Don’t see what you need here? We also offer [Residential Equipment Services](#) for homeowners and property managers.

Commercial Equipment Repair

We specialize in commercial small engine repair and power equipment repair for the sewer, water, and construction industries. Every repair is handled by factory-trained technicians who understand the demands of field equipment and the urgency of keeping your machines running.

Searching for “small engine repair near me” and in the Chicago area? Look no further than A&A Equipment and Supply.

Our Commercial Equipment Repair Capabilities Include:

- **Engines and Power Equipment:** Honda, Kohler, STIHL, Husqvarna, Wacker Neuson, and Miller Welder
- **Compactors, Saws, and Pumps:** Complete rebuilds, tune-ups, and engine overhauls
- **Welding and Generator Systems:** Diagnostics, fuel system repair, and electrical troubleshooting
- **Concrete and Demolition Tools:** Vibrators, saws, and small pneumatic tools

- **Heater Service:** Propane, diesel, and electric jobsite heaters tested for safety and performance

Why Contractors Choose A&A Equipment and Supply:

- In-house service reduces downtime—no shipping delays or third-party repairs
- OEM and aftermarket parts available for faster turnaround
- Equipment maintenance services to extend equipment life
- On-call service support for emergency equipment repairs, as well as equipment rentals and swaps

Commercial Equipment Rental

When uptime matters, our rental fleet is ready. We offer short-term and project-based commercial equipment rentals for essential equipment used in sewer, water, and site construction. Each unit is serviced in-house and field-tested before every rental to ensure safety and performance.

Available Commercial Equipment Rentals

- **Cut-Off Saws and Demolition Tools** – Husqvarna, STIHL, and Partner saws
- **Compaction Equipment** – Jumping jacks and compactor plates
- **Generators and Welders** – Portable and heavy-duty Miller units
- **Heaters and Blowers** – For concrete curing and cold-weather operations
- **Water Pumps** – Dewatering and transfer pumps with hose and camlock fittings

Contractor Benefits:

- Daily, weekly, and monthly rental rates available
- Pickup in Bensenville or same-day local delivery within 50 miles
- Replacement units available if downtime occurs
- Flexible terms for long-term municipal or seasonal projects

Sewer and Water Material Takeoffs

One of A&A Equipment and Supply's most valuable services is our free sewer and water [material takeoff](#) program (also known as construction takeoffs), designed to save contractors time, money, and mistakes. Our experienced team reviews your construction plans, calculates exact material quantities, and provides a detailed list of the pipes, fittings, structures, and accessories required for your construction job.

Our Construction Takeoff Process:

- Full take-off services for sewer, storm, and water main projects

- Detailed itemized lists including pipe diameters, lengths, fittings, and precast components
- Quick turnaround for bid preparation and field coordination
- Ensures accuracy and prevents over- or under-ordering of materials

Related Products:

- [Power Equipment](#): Saws, compactors, generators, pumps, and welders
- [Blades and Coring](#): Abrasive and diamond blades for concrete and ductile iron
- [Plumbing & Sewer Supplies](#): Hoses, couplings, and utility accessories

Additional Services:

- **Rebar Material Takeoffs (Upon Request)**: Quantities and lengths calculated for structural and concrete applications
- **Product Matching**: Aligning take-off materials with your preferred manufacturers and specs (e.g., IDOT-approved components)

Why It Matters:

Accurate construction takeoffs mean fewer change orders, faster project starts, and reduced waste, ensuring your job stays on time and budget.

What Makes A&A Equipment and Supply Different

As a leading equipment supplier and service provider in Chicago, A&A Equipment and Supply delivers a complete, one-stop experience for contractors and municipal crews. From equipment repair and rentals to sewer and water material takeoffs, our in-house expertise ensures fast turnaround, reliable performance, and reduced downtime.

Our Core Strengths:

- **Free Material Takeoffs** – Comprehensive plan reviews for sewer and water construction projects, including precise quantities and specs for pipes, fittings, and precast materials
- **In-House Equipment Repairs** – Local small engine and power equipment repair for welders, compactors, generators, and saws—serving contractors across Chicago and the suburbs

- **Certified Technicians** – Factory-trained for Honda, Kohler, STIHL, Husqvarna, Wacker Neuson, and other leading equipment brands
- **Emergency Field Support** – Same-day repair or rental replacement to keep your crews productive and your jobs on track
- **Logistics and Delivery** – Fast, reliable equipment delivery within 50 miles of Chicago, plus direct manufacturer shipping for large or special-order items
- **[MBE Certified](#)** – Proudly certified as a Minority Business Enterprise in Illinois, serving Cook, DuPage, Kane, Will, Kendall, McHenry, and Lake counties
