

Let Property UK

Hey, Let property UK team. I am a marketing consultant trainee and I had a look at your Instagram page and I liked the layout of properties, information and overall look of the account, however I do believe there's one thing that can help you guys with that will take it to the next level! I know it sounds too good to be true but hear me out. The only thing I'm looking to gain from this is some traction for myself. I'll work for free, stress, all on my shoulders, you just sit back and see what is brought to you in terms of a new social media page and potentially more sales!

New social page

I notice there isn't much traffic on the Instagram page, with that being said it doesn't mean there aren't sales. However with a lot more attention comes more potential buyers.

Now on Facebook I see your competitors have between 10k - 15k followers and I believe with that kind of following you guys can increase those sales significantly.

Like I said, my job will be to sort out a Facebook page with some posts, bio and links to your website. You and the team just have to keep doing what you're doing and when I'm done I'll present the work and we can take it from there.

Thanks, will speak soon

Ben Lockhart.
