Hello there!

I'm Lyrian, aka CyberLyri [Previously TinyLyri]

If you're reading this, you've purchased or downloaded something from my shop!

Thank you so much <3

Have a quick read of my Terms before you use my creations.

Each MegaPack release takes 10-16 hours to create. Reading the TOS takes three minutes. Please respect your creators for giving you free content!

## **CREDITING RULES**

- Always credit Lyri when posting with these assets
  - CyberLyri/TinyLyri are both valid credits, as is linking the booth shop
- When crediting on platforms where Lyri is present, please tag directly!
  - Twitter @TinyLyri
  - Instagram @CyberLyrian
  - DeviantArt @CyberLyri
  - VRoidHub: either use the booth credit feature, or link assets in your description. "Assets by CyberLyri/TinyLyri" is acceptable when using more assets than the links will fit, but please link at least one so the shop is accessible through your model listing.
- Otherwise, link back to <https://crystinelucarnia.booth.pm/> if possible
- If it is not possible to tag or link, you **MUST** still credit TinyLyri in either an attached comment or in the caption.
  - Ex. Uploading VRC models, descriptions must include my name

These assets are a lot of hard work, and your contribution is to share who made them in exchange for using them. This should go for any creator you've downloaded from!

## **USAGE RULES**

- You may convert models made with these assets for other programs
  - MikuMikuDance
  - VRChat, ChilloutVR, and similar software

- When uploading one of Lyri's premade models, please keep the given model title.
- If it is your own model using my assets, include "Clothes by" or "Assets by" in the descriptions.
- If possible, when putting in a sharing space such as an avatar world, please add a sign nearby with the link of the booth shop to direct people to the asset creator.
- For other programs, please contact me via email or my social media to discuss your request.

**The following are rules that will exclude you from receiving a warning, and place you immediately on the Blacklist if not properly observed.**

- You may not sell models with these assets. They are free, and should not be used to charge anyone. If you have purchased a paid set from my kofi, you still may not, my assets are not for resale in any form.
- You may not reupload and redistribute these assets. They will only be distributed through my booth shop or ko-fi. You may only share a finished model using my assets.
- You may make edits for personal use, such as recoloring or retexturing. But you may not redistribute said edits. [Immediate Blacklist]
- You may use OC models with these edits in projects containing 18+ themes, but you may not use them in content that insults, degrades, or fetishizes individuals or groups.
- You may not distribute a child or minor-appearing model with sexual permissions, and you may not ever distribute a model that does not require attribution if you used my assets.

*By posting images or videos containing my assets, you are giving permission for me to retweet/repost them. I will always credit the model owners when doing so. I enjoy seeing what people make with my creations, and boosting artists that use them.*

**If you break my rules, you will be given one warning only before being blacklisted, which removes you from being able to request commissions or join events, and will be reported to all content groups I am part of.**

**You have 24hrs after the warning is given before you will be reported on the site where the content was found, as well as added to the official Blacklist. Please be aware that this system is in place to allow those who forgot accidentally to take proper responsibility.**

**If you have been warned previously and it reoccurs, I will make the judgment call personally based on your previous response whether I will immediately blacklist you or contact you privately about the matter beforehand. Do not expect an automatic forgiveness, as I take misuse of my assets very seriously due to the amount of time and effort I put into them. If it is your first offense but you have seriously and blatantly broken important rules about appropriate content use, there is no warning, you are blacklisted immediately and reported on the given platform.**

Thank you for reading the asset Terms of Use properly!  
Have fun, and thanks for downloading! <3  
I look forward to seeing what you create.
