Abstract: The abstract should be summarized about the content of the article and it should not exceed more than 300 words and not less than 100 words.

Please include 3-5 keywords for indexing purposes apart from title.

Keywords: sensitivity plot, cycle of money, financial liquidity, escape savings

Introduction

It should summarize the rationale, provides a concise research background (not an exhaustive review) and states in single sentence the objective of the study. Please do not include any results or the conclusion of the study.

Materials and Methods

Please provide concise but complete information about the materials and the analytical and statistical procedures used. This part should be as clear as possible to enable other scientists to repeat the research presented. Brand names and company locations should be supplied for all mentioned equipment, instruments, chemicals etc. All the ethical permission associated in the research work must be specified. Indicate the statistical methods used and identify statistical significance using superscripts (* and **) following the data (*P<0.05, **P<0.01).

Results

It should disclose about the findings of works and the same data or information given in the table must not be repeated in a figure and vice versa.
