Buckeye Hills Regional Council Caregiver Support Program

Caregiver Programs/Support

1-800-331-2644

1400 Pike Street,

Marietta OH, 45750

If you assist someone else who needs help with their daily living, then you are a caregiver. The Caregiver Support Program addresses the growing needs of informal caregivers providing care for loved ones at home. One of the most important highlights of this program is the focus on the caregiver. Traditionally, the older adult is viewed as the “client” and, therefore, the focus of the care-planning process. In this program, however, the caregiver is the focus. Respite Care provides relief for the caregiver by arranging for services such as personal care, homemaking,

or adult day services. This short-term assistance supports the well-being of caregivers as they balance their lives and caregiving responsibilities.

Fit to Drive Program

Senior Resources, Older Driver Safety Programs

Being able to get around in your community is a critical part of remaining independent and healthy. It helps us feel connected and lets us access opportunities to contribute to our community in meaningful ways. It is also crucial to maintain our physical and emotional well-being. Most Americans age 70 or older have a driver's license (nearly 90 percent of men and 80 percent of women in that age group). As we age, multiple factors - from cost to physical and mental ability - can make driving more challenging. Making the decision to stop driving is rarely easy, but may be the safest thing to do in some cases.
