{firstname} ready to double your SEO customers?

Hello {firstname},

Want to get more SEO clients? It is easier than you think.

Every business is looking for more traffic online and if you can convince them that you are the person who can bring it to them then they will not hesitate to recruit you and pay you for it.

The key is, to draw their attention and convince them that you have something to offer.

The best way to do that is through a custom lead magnet. Yes, not one of those 'Download My SEO PDF'. A lead magnet that is designed just for the customer and will not fail to draw them in.

What about a custom SEO report for their site that tells them about all the things they need to fix?
