

Job Role: TEAM Senior Programme Manager - Technical

Role: Capital Enterprise are looking to recruit a Tech Ecosystem Acceleration & Market-making (TEAM) Senior Programme Manager - Technical

Term: Full-time until June 2023

Salary: £45,000

Capital Enterprise

We are a body of connectors, influencers, investors and policymakers, collaborating to serve and super-charge the UK's start-up scene.

Our vision is to make the UK the best place in the world to start and scale a business. We unite a powerful membership network of leading universities and colleges, accelerators, co-working spaces, enterprise agencies, innovation institutes and public sector organisations. Our committed members provide a range of programmes to help companies launch, innovate, grow and scale their businesses. As a catalyst, we enable entrepreneurship by supporting our member organisations to initiate, develop, promote, and deliver services directly to start and grow businesses. Capital Enterprise is mission-driven, not profit-driven.

TEAM Project Summary

TEAM will expand and improve the business support and investment eco-system in South Yorkshire by delivering high-quality pre-accelerator, accelerator, and investment readiness programmes to further grow the high value digital and tech cluster and thereby create high-value jobs and prosperity. TEAM will be delivered by Capital Enterprise (UK) Limited and Barnsley Council and is part-funded through the European Regional Development Fund. The candidate will report directly to GovTech Academy.

Roles and Responsibilities

We are seeking a Senior Programme Manager with Technical expertise to lead a programme and offer technical guidance and product integration support to early-stage entrepreneurs on a GovTech accelerator programme. This role will have additional supervision from Meganexus Ltd, our technology partner on the GovTech programme, to provide technical guidance and product development capabilities.

- Lead the accelerator programme, including recruiting entrepreneurs and SMEs and executing a best in class offer for GovTech solutions to produce world-leading solutions.
- To support the development of new digital technology products suitable for public sector end-users.
- Offering technical advice and expertise to SMEs to support them with the development of technical products, integration with pre-existing technical components, technology scaling and adaptations e.g. use of APIs with standard and proprietary products commonly found in the public sector, compliance with technical standards and certifications.
- Working with technical partners, initially with Meganexus Ltd but potentially including interactions with other product providers/platforms (e.g. Azure, AWS), to explore on a white label basis, the use of technology products that might aid and assist the rapid development and deployment of new products and to assist in the technical development of those products to meet the needs of SMEs participating in the programme.
- Shaping and executing a best in class offer for GovTech innovations to develop solutions that can have real-world impact.
- Building relationships with the entrepreneurs, business leaders and key stakeholders, be it investors, mentors, specialist advisors and the corporate community.

Who for?

- Experienced digital technology product developer, preferably with direct experience of working in the private sector on GovTech/Public Sector technologies.
- Additional experience of working in learning environments or within small/start-up companies also desirable.
- The role requires strong planning, information management and general communications skills, together with established technical expertise to achieve programme objectives.
- Experience in relevant Public Sector-facing technology products
- Excellent technical skills, including: UX/UI, Angular, HTML, CSS and RESTful APIs
- Experience of digital solutions developed to solve problems in the public sector
- Strong leadership and interpersonal relationship skills.
- Understanding of the needs of small companies and the Public Sector and how they operate together (such as after sales support, workshops, simulations, procurement, trials, e-learning and mentoring/coaching)

How to Apply
