Fill in at least one of the following fields and press the "Search" button. A list of all matching publications will be shown with an import button next to each item. To import the metadata of a publication, click its respective "import" button and proceed to the next step.
All available metadata will be present in the describe step in its corresponding field.

Importing a publication will delete all metadata that was already added to this item!

Search:

Fill in a publication ID, DOI, Title or Author and then press “Search”. A list of all matching publications will be shown to you to select in order to proceed with the submission process.

Example search queries:

- 10.1080/00222933.2024.2374542
- "Energy security and the diversity of energy flows in an energy system"
- "Ranjan Ashish"
