

College Tour/Admissions Questions

Name of School: _____

Before you make your final decision on which college to attend, be sure you are taking tours of at least two different campuses to weigh the pros and cons of each one. While on a campus tour, ask a few of these questions to get a better idea of which campus is right for you:

1. What is your graduation rate? Do most students graduate within a four-year timeframe?
2. Do you offer internship/job placement assistance?
3. What forms of financial aid do you offer? Are scholarships available?
4. Will my credits transfer if I decide to go to another school?
5. What is the student to teacher ratio?
6. Are there extracurricular activities at the school that I could be involved in? If so, what are they?
7. Are there work-study programs available at your school?
8. Are tutoring options available?

And don't be afraid to speak to some of the students that you know/see walking around:

- 1. Do you feel that classwork is manageable?
- 2. What is campus life like?
- 3. Do you feel that teachers can be easily reached outside of class? (ex. Are there designated office hours for you to speak with a teacher if needed?)

Now that you have a better idea of what this school offers, list out the pros and cons:

Pros	Cons
