

# PREPPING FOR VIRTUAL/BLENDED LEARNING AT LHS

All students have responsibilities regarding Virtual/Distance learning Monday - Friday, **each week**. Some students will only engage in Virtual learning... while some students will engage in our Blended learning model, meaning in addition to distance learning, they will attend school two half-days, each week.

Please see the information below... in order to be set up for success, as we embark on a new school year:

1. All students should be sure to login to their Google account on Wednesday morning (no matter which cohort they attend).
2. All students should click "join" in each of their Google Classrooms. Parents/Guardians can also be added to their students' Google Classrooms.

3. Students should then, access their Google Calendar app. The Google Calendar app. will show each of the scheduled Google meets for the day and will provide the links to the meets.

4. Students should be sure to join their scheduled meets whenever possible. Meets will be recorded in the event that a student has a conflict with a scheduled meet.

5. During a typical week, all teachers will post the weekly syllabus and assignments for their courses on Friday afternoon, for the following week.
