

Name Animation Project Instructions

Each student will start a new project in [Scratch](https://scratch.mit.edu). Your task is to animate your name:

- ☐ There must be at least 4 letters (if your name is short, use your last name. If your name is long, use a nickname.)
- ☐ Each letter must be its own Sprite.
- ☐ Each letter must do something when the green flag is clicked (spin, move, change color, bounce around the screen, etc.)
- ☐ Each animation must go on in a "forever" loop, until the stop is clicked.
- ☐ The background must be changed to anything besides the default white screen.
- ☐ Extra possibility: Each time the green flag is clicked, each letter re-positions itself so that it can be read.

Name: _____ Block: _____ Reviewer: _____

Name Animation Rubric

Do You Have?	Points Possible	Yes	No	Points Earned
Separate Sprite for each letter of your name. (Minimum of 4 Sprites)	25			
Use the <i>when green flag clicked</i> block for each Sprite.	25			
Each animation must go on in a "forever" loop, until the stop is clicked.	25			
Uses at least 3 different options under "change effect by" block. (<i>color, fish eye, whirl, pixelate, mosaic, brightness, ghost</i>)	15			
Stage background isn't blank.	10			
Total Points	100
