Abstract

Prepare your abstract in a single paragraph. The recommended content is providing the background of your study and explaining the problem or gap in knowledge that your research addresses. State the objective of this study. Briefly describe the research design, methods, materials, or techniques used in your study. Summarize the main findings or outcomes of your research. Highlight key data, trends, statistical analyses, or significant observations. State the main conclusions drawn from your study and discuss their implications. Address how your findings contribute to the existing body of knowledge in your field. **Abstracts must be written in English if the presentation is in English. If the presentation is in Bahasa Melayu, abstracts must be provided in both Bahasa Melayu and English. Each abstract should not exceed 250 words.**
