

Vortexz Star Commission Sheet Terms of Services and All of That Jazz

Updated 09-03-2023

The important stuff first;

Any reference in this sheet to "me" or "I" means the one writing this thing, Vortexz Star and Personnas

Anything that you commission from me may **not** be used for NFTs or any crypto-related project.

Anything that you commission from me may **not** be used in any sort of AI database.

I **retain ownership** over media commissioned from me. I may post it at any time and may use it for the sake of portfolios.

Payments are made **after** the sketch stage.

Full image revisions are **complete** at the sketch stage, no going wishy washy unless you're ready to pay for it.

No refunds after the sketch stage. This isn't to be a jerk, it's just here to ward off the wishy washy refund-happy type. I want you to be happy with your commission of course and will do reasonable revisions to the most reasonable extent that I can (things like colors, shading, linework choices, etc, case by case). Just keep this and previous points in mind.

Explicit content **is** allowed, however please be professional about it. If you're here for this, then you should also know what is and is not allowed.

You may commission a piece of a character from somewhere else, but we **have** to talk about who it is first. Same goes for like any OC that I have that you want to commission for some reason.

When agreeing on steps of the process like the sketch or revisions, I ask that you do it over emails.

I always retain the right to deny requests.

By contacting me for a commission you agree to the terms in this document.

Payments are made through Venmo invoices

Pricing structure (all in USD over Venmo):

Line Art/Inks/Body Bits:
Shoulders Up/Head/Bust/Icon - \$25
OR
Waist Up/Half Body - \$35
OR
Full Body - \$50

Wingtax - +\$10
Complicated Armor/Bits - +\$10

Coloring:
No Color - No Additional Cost
Flat Color - +\$10
Simple Shading - +\$10
OR
Real Color Shading - +\$20
OR
Complex Shading - +\$35

AND/OR
Manga Style Shading - +\$20

All prices listed are baseline and subject to change based on complexity of request. I give you my promise that I will try to get you the fairest price that I can afford to give you.

Backgrounds are charged based on complexity. It's not a flat rate I can just put here. Please ask about it. Simple backgrounds like patterns or marble or flat colors are free.

(Natural backgrounds usually cost less than ones in cities or rooms.)

References can knock off the flat color price. Flat color price is if I have to make a color palette for you.

Please make your own color palette for your characters if you have something specific in mind.

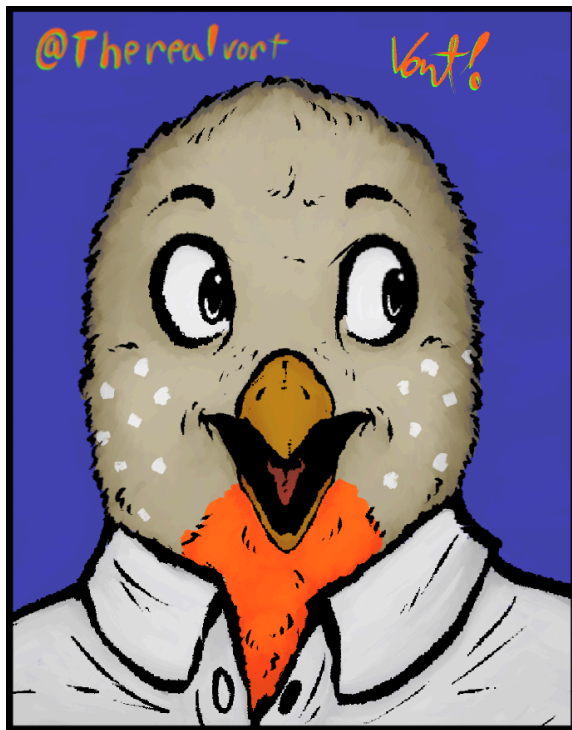

Not that I don't enjoy making color palettes, of course :). I just wouldn't want you to be disappointed with a color scheme you didn't like. If you want multiple color takes on a piece it would cost as much as the flat color price for each variant.

For example, if you want a piece in a red or a green alternate you would pay \$20 for the red and green version. If you already had a red color palette and want me to make up a green one, it would be \$10.

If you have a specific lighting request, like bisexual lighting, I may have to charge a rate for flat color anyway, but that can be discussed based on what you have in mind.

If you request multiple pieces there is no discount except for reused assets, things like same lineart for example with different shading style or things in that same area, background, color palette, etc.

Overall, I want you to be happy with your purchase, and I want to be happy with my living :)

Drawings above for example:

Speckle Portrait: Bust (\$25), Complex Shading (\$35). Full Cost \$60 (Speckle already had established colors, so no flat color cost.)

Werewolf Painting: Full Body (\$50), Complex Shading (\$35), Background (\$20). Full Cost \$105

Legoshi Drawing: Half Body (\$35), Manga Shading (\$20). Full Cost \$55

Legoshi Painting: Half Body (\$35), Flat Color (\$10), Complex Shading (\$35). Full Cost \$80
(Legoshi has pre-established colors, but with bisexual lighting I had to create a new palette.)
