

Sinf \_\_\_\_\_ Ismi, Familiyasi \_\_\_\_\_  
**8 sinf Algebradan 2 – BSB savollari**  
 sana \_\_\_\_\_

**II variant**

1. Kasrlarni ko‘paytiring. (**4 ball**)

$$1) \frac{4c}{b} \cdot \frac{3n}{12c} =$$

$$2) \frac{x^2 - 9y^2}{3x + 9y} \cdot \frac{3y}{2x - 6y} =$$

**Javob:** \_\_\_\_\_

2. Algebraik kasrlarni bo‘ling: (**4 ball**)

$$1) \frac{6a}{15b} : \frac{2d}{5c} =$$

$$2) \frac{6a^3}{5b^5a} : \frac{36a^4b^2}{25b^4a^2} =$$

**Javob:** \_\_\_\_\_

3. Hovuz birinchi quvur orqali  $x$  soatda, ikkinchisi orqali  $y$  soatda to‘ladi. Agar bir vaqtida ikkala quvur ochib qo‘yilsa, hovuzning  $\frac{3}{4}$  qismi necha soatda to‘ladi? (**6 ball**)

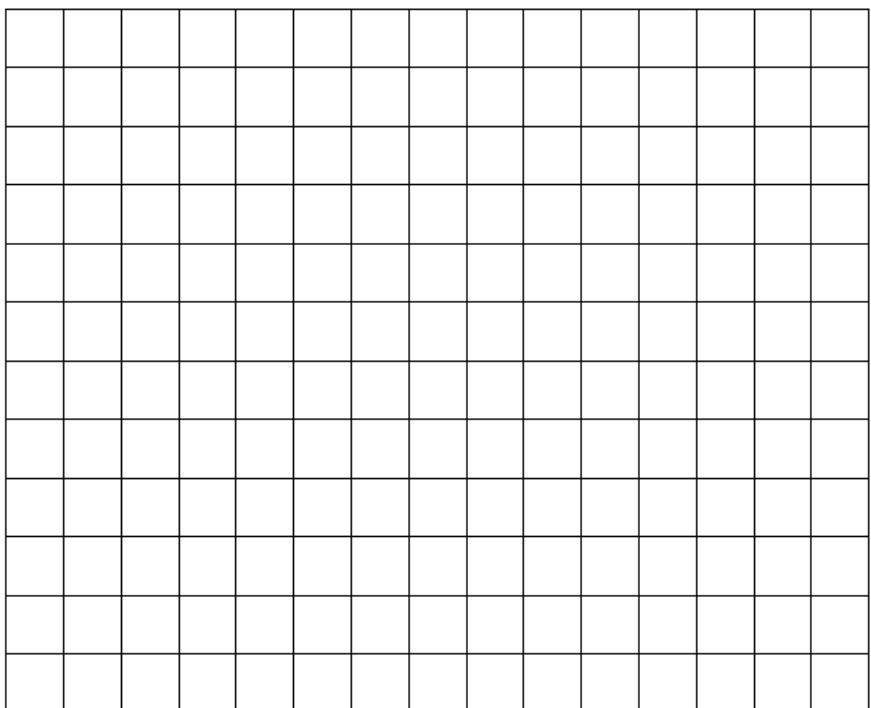

**Javob:** \_\_\_\_\_

4. Amallarni bajaring. (**6 ball**)

$$\left( \frac{m}{n} + \frac{n}{m} + 2 \right) \cdot \left( 1 + \frac{m-n}{m+n} \right)$$

**Javob:** \_\_\_\_\_

5.  $y = \frac{2}{x} - 3$  funksiya grafigini yasang. (**5 ball**)

**O‘quvchining to‘plagan balli:** \_\_\_\_\_

Tekshiruvchi o‘qituvchi: \_\_\_\_\_ (imzo)
