Waubonsee Community College

Re: Physics Instructor

I hereby apply for the position of Physics Instructor at WCC with Requisition Number 1526

I have taught Physics at the College level, graduate and undergraduate, as well as at the highschool level, for over forty years. I have led physics labs, and lecture sessions, mainly lectures. I have given talks for scientific colleagues, and the general public. These physics related jobs also involve research, both applied, and purely theoretical.

I will be happy to continue working at Waubonsee Community College for the foreseeable future.

Respectfully,

Eduardo Cantoral Ph.D.
