Known Issues

Below is a list of issues that I discovered while creating the plugin, I think Epic Game will fix them over time.

Issues	Comment
Issues	**Comment**
Login PersistentAuth	Fix in 5.2
Send Session Invite	Using Invite from EOS overlay for the moment
Global Leaderboard	Leaderboard working only with friends if you **QueryFriends** before and players in session
Session on PIE works once	Play Standalone Game
GetUserAvatarURL	Not Implemented in EOS
Start Matchmaking	Not Implemented in EOS
Connectivity	Not Implemented in EOS
