Artist Statement

Los Angeles-based artist Isabella Kim creates unique mixed media works infused with positive energy. With a background in ceramics, she earned her Bachelor's degree in Korea before studying jewelry design at the Fashion Institute of Design & Merchandising in Los Angeles. After working as a ceramics instructor and jewelry designer, she expanded her artistic expression to explore larger forms of visual art.

Inspired by the decorative elegance of Art Nouveau and the light-filled techniques of the Impressionists, Isabella incorporates their beauty into her work through a variety of materials. Gold, a symbol of nobility, wisdom, light, and fortune, plays a key role in her pieces, often paired with gemstones to enhance their mystique and allure.

When creating, Isabella draws from her most joyful and beautiful moments, channeling positive energy into her work. She hopes that those who experience her art will feel a sense of happiness, inspiration, and uplifting energy.
