DISCLAIMERS and FAQs (Very important):

- I accept payments in Ko-Fi and Paypal, and I only work with **UPFRONT payment**, so once you pay, i'll start working
- Prices may vary, these are just the base prices which means that they can be more expensive depending on complexity
- Pricing go on US dollars (so i can brag to my latin friends)
- Prices go on "Subjects", if there are more than 1 subject, the price WILL rise, approximately 50% more
- If there's a deadline necessary for your drawing, let me know beforehand. I usually take around a week to do something too, of course it depends on the complexity like always.
- I WON'T draw: Mechas or complex robots, NSFW / Kink stuff, Gore, Hate art // I MIGHT draw: Suggestive, Humans (We can discuss that when you give me your ideas) **If your idea does not go in any of these categories but I still don't want to draw it, I WON'T DO IT, do not insist pls!!!**
- I might use AI technology to help me develop more complex backgrounds, like complete skylines or planets or whatever crazy idea you might have, of course i'll tweak it so it's not too obvious, and the main subjects will be completely drawn by me (not a robot, i've done my captchas)
