

A26 Ventures: The Best Service Providers

It takes a village, these are the people we trust to help you build.

Why picking your Service Providers is important

Your job is to build a world changing company, and at the earliest stages you're asked to do that while still building the infrastructure of your company. Like any great house, it starts with a solid foundation. Your Service Providers are the ones who lay and maintain that foundation so that you can stay focused on your vision, your team, and your customers. Here's our favorite people to work with:

Legal – DLA Piper

- Sarah Chambless and Pablo Hernandez are THE BEST startup attorneys to work with. They answer every text message, show up at every event, make every connection – this is, hands down, who you want in your corner at every stage of your business growth from forming the entity to exit.

Accounting – CLA

- Bobby Dormanesh and Tom Jones will make tax season feel like another day at the job, not another hurdle to jump over.

Banking – we have lots of friends in banking, and they're all great.

- Connor Mahloney is an A26 Ventures Alumni working with Stifel Bank.
- Sree Batchu is a long-time friend of A26 Ventures working with HSBC.
- Alex Sleisenger and Connie Shih are dear friends of A26 Ventures working with JP Morgan Chase.
