

Empathy Interviews

Goal: To gain a deeper understanding of a user's experience of the issue you are working on.

Best Practice for Empathy Interviews:

- > Seek to understand, not confirm
- > Ask once, clearly
- > Ask questions that elicit stories and feelings
- > PROBE: "Tell me more..." "What was that like for you?"

Possible Empathy Interview Questions (ones in bold highly recommended!):

- What is **one word** you would use to describe how you feel about X?
- Tell me about a time when you felt successful in X...
 - What happened? What made this a success? (What did you do? What did others do?)
- Tell me about a time when X was hard...
 - What happened? How did that feel? Why was that hard? What do you wish would have happened?
- What advice would you give another student/person about X?
- What advice would you give to me about X?
- What do you wish others knew about X?
- Suppose you could have **three wishes** to make X the best it could be. What would they be, and why?
- What do you wonder about X, or wish you knew?
- Draw me a picture of what you think about when you hear X... (then "Tell me about what you drew.")

PREP FOR THE INTERVIEWS (15 MINUTES):

What questions could you ask a student/practitioner/stakeholder to understand their experience of your group's problem/issue, and the factors contributing to it?

- 1. *Question Selection/Brainstorm* (3 min): <u>Individually</u>, review the questions below. Adapt these or generate a few questions of your own.
- 2. *Share & Organize* (5-10 min): As a group, identify/organize your top 5-6 questions. Will they help you understand what makes X challenging, or when students experience success (i.e. the root causes you need to address)?
- 3. *Predict & Plan* (3 min): Each person shares one thing they think they will hear. If you are doing the interview with a partner, decide who will interview and who will take notes.

CONDUCT THE INTERVIEW (20 MINUTES)

Your questions:

- 1.
- 2.
- 3.
- 4.
- 5.

Your notes:

REFLECT ON THE INTERVIEW (5 MINUTES)

	_		_	_		4.	
·	u	"	L	C	"	t:	

What did we **hear**? What are we learning about the **root causes** that contribute to the issue?

Process:

Are there **questions** we wish we would have asked? Are there **questions** that were particularly **fruitful**? Did we **probe** effectively?
