

Privacy Policy - “VGRC”

In Emporij d.o.o., we are committed to maintaining your confidence and trust by protecting your personal information and data and at the same time providing you with efficient and user-friendly solutions. This Privacy Policy tells you how and for what purpose the mobile application VGRC collects and accesses your data and how your privacy is protected.

Why We Collect and Access Your Data

In order to provide you with its full range of functionalities, the VGRC mobile application requires access to some of your data and components stored in your mobile device. This is required for the purpose of storing data from the app on the phone.

Collecting and Accessing Data

“VGRC” mobile application collects and needs access to the following data:

- **Internet**
 - The application needs internet access (INTERNET) to connect to online resources and services.
- **Writing and Reading Device Files**
 - Access to write (WRITE_EXTERNAL_STORAGE) and read (READ_EXTERNAL_STORAGE) on your device is necessary for managing various files such as XML data entries, images, logos, and PDFs.
 - The application also requires the ability to read media images (READ_MEDIA_IMAGES) to handle image files efficiently.
- **Camera**
 - The application uses your device’s camera (CAMERA) to take photos directly, enhancing the app’s interactivity and functionality.

- **Location Access**

- Coarse location access (ACCESS_COARSE_LOCATION) and fine location access (ACCESS_FINE_LOCATION) are required to provide location-based services, like showing nearby points of interest.
- Access to locations in the background (ACCESS_BACKGROUND_LOCATION) allows the app to receive location updates even when not actively in use.

- **Foreground Service**

- The use of foreground services (FOREGROUND_SERVICE) in conjunction with background location and both coarse and fine location access enables the app to continue collecting location data while running in the background or when not actively in use.

User Data Access Settings

You have the autonomy to decide which information to share and can adjust the VGRC mobile application's access through your device's settings. Please be aware that limiting access might impact the functionality of certain features as detailed above.

Changes to Privacy Policy

We may modify the Privacy Policy from time to time. If we decide to change our Privacy Policy, we will post the changes under Current Notices on our site.

This policy was last modified on May 7th 2024.
