

S. C. P. | INDIVIDUAL SYNOPSIS REPORT | ISR

SAP-EC5 // MTF ISR // CL4 // NOFORN // SECRET-SCI

[12/29/2022] - [01/11/2023]

- 
- Full Name: Josephine K████████
- Designation: .. "Kito"
- Occ. Spec.: ... E-11 LSA Specialist
- Cur. Rank: Major[GRD-1]
- Op. Status: ... ACTIVE SERVICE
- Dep. Region: .. CA, █████, S-████

Josephine K████████ was a Central Intelligence Agency field operative, primarily working with the FBI's Unusual Incidents Unit. She eventually caught the attention of several Foundation agents as a potential hire for MTF; Continued investigations of her led to a CDE-Class Scenario.

Josephine was promptly designated as a Kilo-Level information hazard, & several MTF-██████ operatives were dispatched in order to terminate her. During the mobilization efforts, Josephine evaded 3 Foundation agents & expunged most data collected of her, before completely vanishing from Foundation surveillance for a number of months.

Several sightings & leads into her whereabouts were discovered, but ultimately all led to nothing. The next confirmed sighting of her was a breach into Site-19.

She took Senior Researcher Ben██████ O. Walker hostage, but later stated that a rogue PMC unit, now within the UN GOC, managed to terminate Walker, and injure her during an experiment with the Spiral Gestalt.

After numerous encounters with her from MTF & Foundation personnel, & several negotiations later, the Overseer's Council authorized her to work within Site-████ as an MTF-██████████ operative.

Josephine was given the designation "Kito" after an incident led to the mis-pronunciation of the word "Kilo". No further information is available.

[By Order of the Overseers Council]

SAP-EC5 // MTF ISR // CL4 // NOFORN // SECRET-SCI

[02/03/2023] - [04/12/2023]

- 
- Full Name: Josephine K████████
- Designation: .. "Kito"
- Occ. Spec.: ... Site-████ Administrator
- Cur. Rank: Site-Manager
- Op. Status: ... ACTIVE SERVICE
- Dep. Region: .. CA, █████, S-████

During an incident regarding the use of a reality anchor, Kito was injured to such an extent further MTF service was deemed unacceptable by both the on-site Medical teams, and the Ethics Committee.

She was placed as a Site-Advisor due to these injuries. Initially her placement was questioned by several individuals, but she proved herself to be a valued asset to Site-████.

She was later promoted to Site-Manager, instating a few different policies and procedures for the UN GOC, as well as standardized Sample Collection Procedures.

She resigned from Site-Administration on 04/12/2023, taking an extended vacation for mental health issues. Therapy was offered by the acting Site-Director, however it is unclear if this was accepted.

The incident report is attached on the following page.

Full Name: Josephine K████████

Designation: .. "Kito"

Occ. Spec.: ... [**CLASSIFIED**]

Cur. Rank: [N/A]

Op. Status: ... ACTIVE SERVICE

Dep. Region: .. CA, █████, S-████

After her resignation from Site-Administration, she was placed as a Senior Researcher within the Nano-Robotics field. She was the lead of Project: Kinesin-6, a Nano/Micro-Robotics Research & Development project.

The Project was a success, and usage of Nano-Robotics has since developed. Josephine's involvement has shifted somewhat over time, but eventually a version of Project: Kinesin-6 was deployed to repair doors over-time within Site-████.

Once she was fully recovered, she was temporarily assigned to MTF Nu-7 "Hammer Down". Currently she assists with termination of Chaos Insurgency raiding parties, and as of 07/12/2023 she was awarded the Foundation Defense Medal for successfully defending Site-████ from a Chaos Insurgency assault.

After a run-in with the UN GOC, she resigned, and further work for the SCP Foundation has been classified by order of the 05-████. It is presumed she still works within Site-████.
