Review

Let's see divided into 3 parts first one is one top

Where you can find all information which is mentioned for example

nutrition- diet plan,

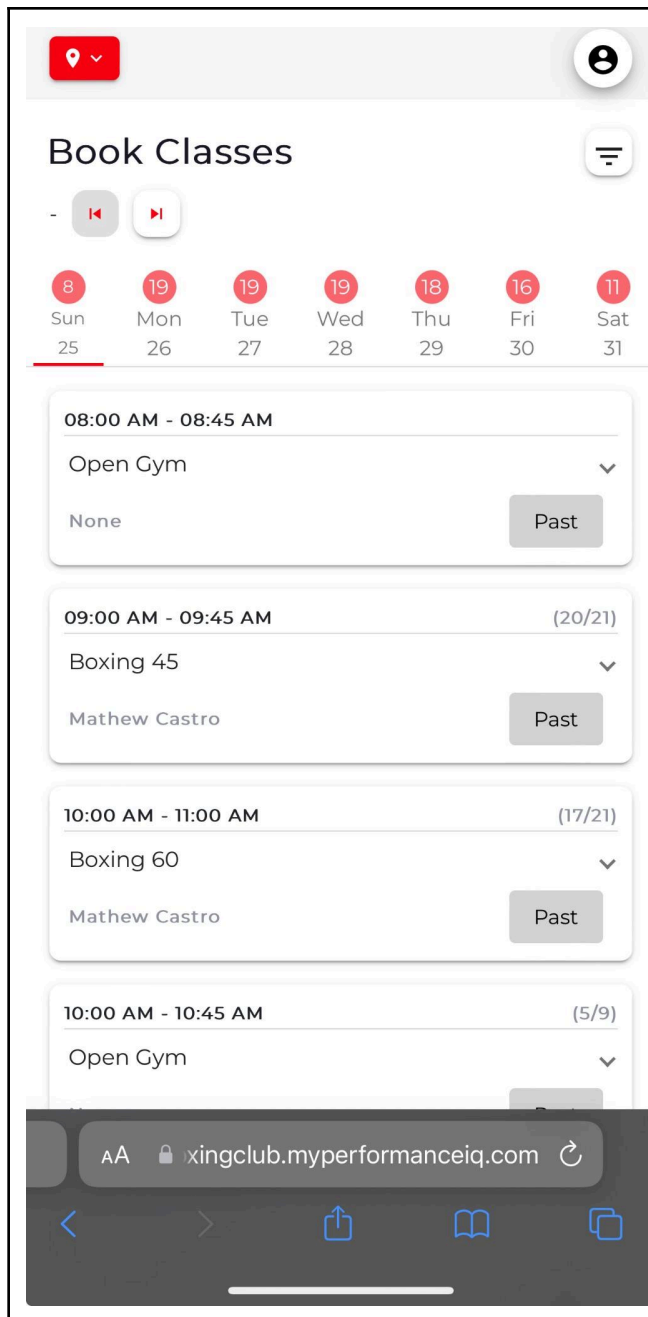

advisor- equipment,

daily exercise schedule

All coach information

Now the 2nd thing which is **Try a Class Today**

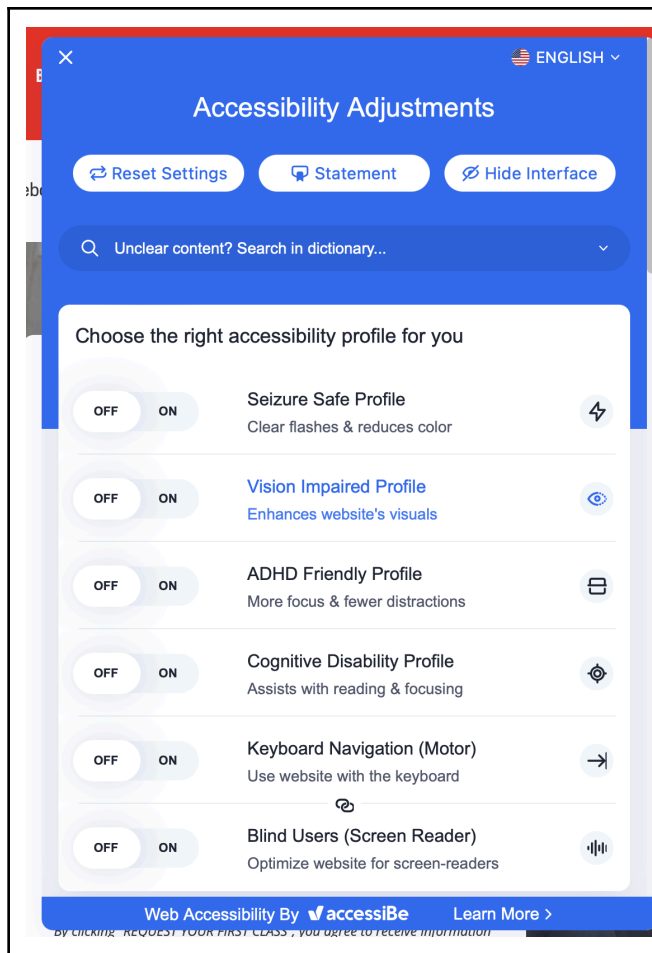

After uploading all information within second I get notification of trial class schedule

So here I can book my appointment flexible in all over the USA.

- And there are many classes which are included in there such as kickboxing, karate, boxing, judo and we can choose our coach with our flexible.

And the last is **Accessibility Adjustments** option

First option is in the right corner where we can see the language. There are 20 languages that are updated where people can choose their own desires. 2nd is web page adjustment you can update with your own comfort. 3rd ai you can get information from the AI so if no one pickup calls and replied to your message so you can get help from the AI.
